Looking for near new with lots of bedrooms and a great open plan for connected living, check out this beauty. Clearly this home was designed for a family to live and grow in. A very well-thought-out entry just off the garage consists of a large mudroom area that you will really appreciate. Do you like to entertain? This home offers lots of space for that. In the kitchen a large island gives an abundance of extra workspace and an eating area, as well. A very accessible walk-in pantry supplies plenty of room for storage. An added feature is the large laundry room with a second fridge, just off the kitchen. There is a total of over 3500 sq ft of super living space, with five bedrooms (the office could easily be a 6th bedroom).. The very large primary suite contains a walk-in closet and three-piece ensuite. Living room has a good East-view and has exit to the deck which is perfect for that morning coffee in the summer. This is a very well-planned and designed home, floor heat in basement and the garage, with nine-foot ceilings up and down. With the help of the big windows the basement is very welcoming and has bright warm feeling. Two other specific features are, the on-demand hot water heater and the New Home Warranty is transferable to buyer. Any areas in basement that need finishing will be completely finished before possession.
